## Daily Intelligencer.

BELLEVILLE, MONDAY, SEPT. 4.

## Town and Vicinity.

**Box**—The export of eggs this week was 2,340 dozen, valued at \$248.28.

**Town Council**—A regular meeting of the Town Council will be held this evening.

**A Good Run**—The youth *Kate Gray* arrived at Colborne this morning, after a good run from Belleville.

**DOMINION RIFLE ASSOCIATION**. The annual matches of the above association will commence at Ottawa to-morrow. Several of our local marksmen will be present and take part in the competition.

**Quota**—The Club match, "the hill" against "lower town" will be pitched to-morrow, play to commence at 2:30 o'clock. A spirited game may be looked for, as the sides are thought to be matched with tolerable evenness.

**INLAND REVENUE**—The collections made in the Belleville District during the month of August amounted to \$48.68, making a total for the year to date, \$2,922.25; Tobacco, \$423.40; Licenses, \$250; Miscellaneous, \$135.55.

**Captain**—We are informed that a positive assurance has been received from Thomas White, Esq., of the Montreal *Quartz*, that he will be present at the forthcoming Convention of the Dominion Rifle Association. Mr. White is a very able speaker, and an excellent address may be expected from him.

**ROBERT**—On Saturday night the office on the ferry steamer *Prince Edward* was broken into, but the robber received a very slight reward for \$3.00 to add to the \$100 he had in his office, and for probably half an hour's work the thief got off ten cents. It is not likely that the same thief will repeat his crime.

**PERSONAL**—Mr. John White, M. P., one of the Orange delegates, has reached home, after a pleasant passage in the *Belleville*. The reception met with in the harbor from the Brethren there was of the most enthusiastic description, and will live long in the recollection of the Canadian representatives.

**BOXES PAID**—The sectional boxes submitted to the ratemakers of the Township of Appleton for \$3.00 to add to the Grand Junction Railway Company have been voted upon and passed. Though the amount is small, the passage of the By-law shows that the people living near the line in the adjoining counties continue to take a warm interest in the enterprise.

**TO MERCHANTS**—Shoppers are required to furnish themselves with the new standard measures, the Imperial gallon and its multiples before the 11th day of the present month. Dry goods men are required to dispense with the system at present in use of measuring cloth by the yard, and to use the Imperial yard, and to place in their counters. Instead they are required to use either metal yards or wooden ones tipped with metal.

**MANUFACTURING RAIN**—A correspondent in a contemporary advocates the firing of heavy artillery to produce rain and extinguish the bush fire, when the dry spells, which occasionally visit us, are so long, and become too lengthy for health or safety. His theory of the manner in which clouds are thus accumulated and rain produced is as follows: "A violent explosion causes a vacuum in the atmosphere, into this the lightest gas, hydrogen, rushes, and at once heats higher, repeated explosions affect a larger atmospheric area, more hydrogen is collected, and so clouds are formed. The electric charge is the result of the sulphur and carbon of the gunpowder employed."

**HINDS HORSES**—It has been decided, says the *Turf, Field and Farm*, that when a horse or carriage is let out for hire, for the purpose of performing a particular journey, the party letting warrants and carries it and is responsible for the journey. If the hiree treats the horse or carriage as any prudent man would do, he is not answerable for any damage either to the horse or carriage. But he must use the horse for the purpose which he hired him. For instance, a horse hired for saddle must not be used in harness. If the hiree violates the express condition of the contract, he is liable for any damage that may occur. If the horse is broken through the hiree's negligence, as leaving the stable door open all night, he must answer for it. But if he is robbed of it by highwaymen, when travelling the usual road at usual hours, he cannot be held for damages.

**Negro Methodist Conference in the South**. The biographical sketch of Bishop Heald is concluding and one of Fletcher of Maryland is begun. An excellent and sympathetic article reviews the methods and successes of Mr. Moody's evangelistic work. The stories by Eggleston and M. J. H. are excellent and contain much of humor and pathos. They provide in quick succession smiles and tears. Articles on Temperance, The Higher Life, and several other topics, all of some interest, make up the number. Each issue of this Magazine seems better than the previous one.

**DARING ROBBERY**—Encouraged by the immunity which they have enjoyed for some time past, robbers have become bolder, and during last night a successful robbery took place. W. & J. W. Johnson's store of a portion of its contents, it may be said, "under the nose" of the policeman on duty. Johnson, like a good many other merchants doing business on Front Street, have depended with the use of shutters, relying upon the thickness of their plate glass windows and the vigilance of the police to prevent the operations of burglars, but in these protective means their confidence proved to have been misplaced. The thief had doubtless carefully watched the movements of the officers, and when their backs were turned, attacked the lower corner of the window with a diamond, cutting a corner of the heavy glass, measuring about 8 inches by 6 inches. He then, aided by a blow of a stone or brick, leaving an aperture small, it is true, but sufficient for his purpose. Through this hole he drew a number of shirts, several pairs of socks and a quantity of other light goods, of the probable value of \$25 or thereabouts, and walked off without being noticed. The transaction is not at all creditable to the police force, and we trust that steps will be taken by the Commissioners to make the force more efficient than it is at present, as it is undeniable that, considering the number of men employed, there is not that degree of efficiency in the force which there ought to be.

**THE POTATO BUG ON THE RAMPAGE**—The potato bug (beetle) is an animal of decided talent—a fellow of intense resource. He shows a confidence in the principle of "Natural Selection," an appreciation of the doctrine of the "survival of the fittest," which must be most gratifying to Mr. Darwin, and the display of his school. He also exhibits a robustness of intellect as regards self-preservation, which speaks volumes in favor of the recently developed dogma of "inherited aptitudes." After having succeeded in consuming the tender leaves and succulent stems of the plant, or after the hunk has been scorched and dried by the sun to the consistency of saw-dust, he is then hunted to the ground like a mole, finds a palatable and refreshing food in the juicy tubers, which he excavates for himself in the soil, in which he burrows, and in which he deposits his eggs. He is a most voracious and agreeable food substance, like a mouse in a cheese, safe from the prying eye of the hand-picker, and not disturbed by dead earth or the presence of Mr. Potatoe. He is, in fact, like the green of the pea, and the green of the other. In proof of these characteristic properties, we have the fact that Mr. M. R. W. Davidson has been out on Saturday, September 2nd, specimens of the veritable thorn, each of which was perforated with several small holes, every one of which contained a tiny, jelly, pale, well-fed larva of the "Dorophila desmoulinae," as the philosophers, for its size, as we suppose, have nicknamed the potato beetle. We are also credibly informed that the insect, which feeds on the tomato plant as well as on the Irish breadfruit, is attacking the ripe tomatoes, and mining into their interior in the same manner as we have described it eating into the interior of the potato. The appetite of this voracious insect is not confined to the potato and tomato plants, as we have observed them (that is the young grub) feeding on the leaves of the tobacco plant, and on a plant which is deadly poison to the superior animals, but which appeared to agree thoroughly with the constitution of the potato bug.

**FEROUS HOMICIDE**—A telegram from Naples, Sept. 3rd, gives the following particulars of a most horrible fratricidal assault which took place on the morning of the 2nd, at the place of the King of the South, Frederick-Charles. Reuben Loucks, aged 50, went to the house of his brother, William, aged 28, close by and altercation arose from an old feud. Reuben was arising from the house and went into the field adjoining, where he was followed by William. A struggle ensued, the brothers closed, and Reuben immediately seized his brother with a large clasp-knife, in the pit of the stomach, producing a wound about four inches long and cutting through the stomach and severing the lower ribs of the liver. He cried out "I am stabbed!" and started for the house, some thirty rods distant, and on reaching the gate he became very faint from loss of blood. His wife was assisted into the house by his own and his assistant's wife. Dr. Rutan was immediately summoned, and dressed the wound, but the victim's recovery is impossible. Chief Allan, of the Naples, Police Force, was the first to arrive at the homicide, and arrested the culprit, who was found in his own house. Three murderous knives were found on his person. He was lodged in Naples jail before midnight. He expressed no regret or contrition for his crime, but rather gloried in it, asserting that he would do the same again. This morning Reuben was slain in his cell, where he was lying on a form in a corner position, and his remains were taken from the Chief's respectful janitor, that he was all right. Both parties are married. William only about three months since. The prisoner had been in the hospital for the day, but could not be held to be innocent when he committed the deed.

**Police Court.**  
(Before A. L. Smith, Esq., J. P.)  
Monday, Sept. 4.  
**WALKER.**  
Alexander Mackenzie vs. A. Murray and H. Baker for \$17 wages. Judgment was given for the amount.

## FROM SEAFORTH.

## GREAT FIRE.

LOSS \$70,000.

**SEAFORTH, Sept. 4.**—A fire broke out this morning in a small grocery on Main street, kept by a Miss Griffith, about 2 o'clock, and being surrounded by wooden buildings it spread north and south with fearful rapidity. Crossing to the west side of the street, it ignited the cornices on the Main Hotel, and then, coming to the east side, consumed the entire block on both sides of Main Street, and extending along Fairchild street on both sides, the distance of one block.

The following are among the sufferers on west side of Main Street: R. Carnichael, Main House; Jas. McMillan, dry goods and groceries; R. McLeary, bakery; Thos. Carson, shoe store; M. Tassone, grocery; Hoffman Bros., dry goods; Geo. Dent, dry goods; Thos. Lee, groceries; Miss Leach, millinery; Mrs. W. Kinsay, dress and millinery; W. N. Tassone, sewing machines; W. Campbell, merchant tailor; Miss Wright, millinery; one empty store; Jas. Gillespie, harness maker; A. L. Ault, grocer; D. McGowan, brazier; Mrs. Griffith, green grocer; A. C. Calder, photographer; K. J. Murphy, carpenter and joiner; John J. Murphy, cabinet maker; S. Stark, boots and shoes; Mrs. Griebel, millinery; N. Newman, barber; Thos. Griebel, T. Sharp's lawyer; J. H. Young, dwelling; Wm. Green's blacksmith and carriage shop; and six dwellings.

## FROM QUEBEC.

## CAUTION'S TROUBLES.

## GONE TO PRISON.

**QUEBEC, Sept. 4.**—Last evening the Hon. Jos. Cauchon called on the arrest of his son-in-law, Mr. Gauthier, for drunkenness and creating a disturbance. When searched at the Police Station, there was found on his person a large pepper containing a few seeds, with which he was endeavoring to make a drink with sliding ring and wristband, loaded heavily at both extremities. Mr. Gauthier was then under arrest on a previous occasion for the same offence.

Mr. Tarte, of *Le Despatch*, left on Saturday for Murray Bay, to serve out of term of 15 days' jail for contempt of Court, instead of adopting the alternative of paying the fine of \$40 imposed on him.

## The Political Situation in New York.

## DISARMING INDIANS.

**LEAVENWORTH, Aug. 4.**—The firemen along the Chicago, Rock Island and Pacific Railroad are on a strike. Two of the engines are to throw trains from the track in the west western division has been made, but without success. A few rioters have been arrested.

**NEW YORK, Aug. 4.**—The *World* says that Mr. Magone left Utica for Albany on Saturday afternoon and spent yesterday in consultation with Gov. Tilden and members of the State Committee. The Executive Committee will meet at the Metropolitan Hotel in this city next Thursday. It is not probable that a conference of the whole State Committee may be summoned at an earlier date or upon the subject of the meeting.

Despatches from various parts of the State leave little or no doubt that the Committee will call a State Convention to meet at once probably at Utica, Syracuse or Oswego.

A Washington special says: The story that the forcible disarmament of Indians at the agencies was contemplated is contradicted by official reports.

The Utica correspondent of the *Herald* under last night's date, says: In an interview with Gov. Seymour this evening, the Governor said, I have had my latest declaration to Mr. Magone, chairman of the State Committee. My declaration is positive. The grounds of my declaration, outside of all other considerations, are that my health would not permit me to perform the duties of the office, if accepted. I cannot in justice to myself or to the people I am to take the position, unless I can perform its duties.

## AFTERNOON DISPATCHES.

**DETROIT, Sept. 3.**—It is officially announced that the *Tribune* has taken the Alcazar is false. They hold no position on the right bank of the Morava.

Holgrave despatches say the Turks attacked the Servian right wing on Friday. The battle lasted until 9 o'clock. At night the Servians maintained their position, but the Turks being three times more numerous the Servians were driven within the fortified positions at Alcazar.

**HAMMER, N.J., Sept. 4.**—Early this morning the *Hammer* mill was destroyed by fire. The mill was narrowly escaped with its lives. Loss \$20,000.

**PROVIDENCE, Sept. 4.**—The jewelry store of Mr. Wallace in Weymouth, was yesterday night, 30 gold watches and three trays of gold rings valued at \$3,000.

**LONDON, Sept. 4.**—A despatch to the *Times* from Belgrade indicates a serious defeat and a thorough reorganization of Tchernavsky's army. Taking advantage of the good will toward the English, inspired by the arrival of the English fleet, Tchernavsky has ordered the evacuation of the city of Belgrade, and is now en route to the coast.

**IN HUNGARY**, on the 21st of August, 1876, (LARRY BARKER, aged 35 years.

The battle commenced just as the party reached the coast.

**THORNTON, Pa., Sept. 4.**—Hoover, Harris & Co. saw mill, together with a quantity of sawed lumber and two dwelling houses, were destroyed by fire last night. Loss, \$125,000.

**WASHINGTON, Sept. 4.**—Probabilities in New England and the Middle States, falling from warmer south and two dwelling houses, were destroyed by fire last night. Loss, \$125,000.

**LONDON, Sept. 4.**—Amount of bullion gone into Bank of England, on balance to-day \$2,000.

## WANTED.

**WE WANT** reliable, energetic canvassing agents in every town in the Dominion for the new "Illustrated History of the Dominion of Canada." This work is truly magnificent, containing over 1,000 illustrations, quarto pages, and over 300 square full page engravings. The work is published in parts, and is a most valuable addition to every English reading family. To energetic young men who desire to acquire a valuable and profitable business, we offer a most excellent opportunity for school teachers to make more than double their salaries without interfering with their professional duties. The work is being manufactured at a cost of over \$80,000, and is being sold at a very low price. Agents must be addressed to the Publishers General agents as follows:

(From Chambers' Journal.)

It was to clock on a summer morning

in Coora Creek, Australia. There were

symptoms of unusual excitement in the

settlement, the gathering place occurred to

disturb its usual routine. At item of news

had arrived from Western Victoria which

had been under their work for the inter-

change of opinion and discussion, and there

was an indication to renew labor for

the morning at least. The discussion

had perhaps been most animated among

the group in front of Sam Coulter's house,

the Sun.

The chief speaker throughout had been

Captain Reginald Brander. Look at it

## Daily Intelligence.

BELLEVILLE, THURSDAY, SEPT. 7.

## Town and Vicinity.

LATE—The mail trains, both east and west, were upwards of an hour late to-day.

ARRIVAL—The steamship *Thames* of the Temperley line, arrived at Father Point yesterday morning at 4:30, with 13 passengers.

FRUIT—The second shipment of fruit grown in this district, for exhibition at the centennial exposition, will be made to-morrow.

THE ORLA—The dormitory was pretty fully occupied last night, the inmates numbering seven—namely, six prisoners and one lodger.

DEAF AND DUMB INSTITUTION—This institution reopened yesterday. There was a considerable attendance of pupils, and more are arriving by nearly every train.

YACHT CLUB—In consequence of other matters interfering, the meeting for the formation of a Yacht Club has been postponed until Wednesday evening next, 13th inst., at Hamby's.

THE "JLA"—It is stated that this celebrated yacht has been sold by Col. Shaw to N. K. Fairbanks, of Chicago, for \$1,200. But for a misunderstanding she would have found purchasers here at the same figure last season.

AGENCY—The schooner *Canadian*, with lumber from Trenton, got aground on the bar of the harbor this morning. She remained fast for about an hour, when the tug *Sherwood* put off for her assistance and released her.

THE "DAUGHTER"—This yacht returned last night, much to the surprise of those who thought she could reach Toronto in time for the regatta there. Sailing Master Black states that he left Bath for Toronto, as stated in our yesterday's issue, believing that the wind would be such that he could not reach Toronto in time to get the mainmast fitted for the race, he determined to return, which he did accordingly.

ALBERT UNIVERSITY—Albert and Alexandra College reopened this day after the long vacation. It is cheering to note that the attendance of students at the opening was the largest known in the history of the institution, and the probability is that the number will be increased, within a few days, to a considerable degree. Our local university is keeping pace with the times in all respects, being more probably more efficient in all departments than ever before.

A BROCCANTO—The *Owago Palladium* says:—"Belleville and the Meara Rath-bun have, through arbitration, agreed on the amount to be paid to the latter for improvements on Mill Island. The mill machinery is to be shipped to the latter. If the Belleville side do the right thing they will convert the island into a park. The island would answer equally well for a site for an hospital, but by-and-by wharfeage will be too scarce to permit of its being put to either of those uses."

PROGRAMME—Work on the Belleville and North Hastings Railway is progressing rapidly and satisfactorily. The work through the granite ridge at Hog (or Mora) Lake has been nearly completed that it will be finished on Monday. The next work of magnitude is a cut of twenty feet deep through a hill near by, the material excavated from which will be used in the "big fill" on the lake, which has already been the recipient of a vast quantity of earth and stone. The bridge at this point will be one of the strongest on the continent.

THE YOSEMITE—Major J. H. Durham delivered the first of a course of two lectures on the celebrated Yosemite Valley, to an appreciative audience in the Town Hall last night. The lecturer is peculiarly fitted for his task, having served as the great national park (which includes the subject of his lecture), a work on which he was engaged for three years. The lecture was illustrated by several beautiful paintings.

HOME FIRES—The fires in the northern townships are still burning, and creating a great amount of destruction among valuable timber. Houses and barns have in many cases been nearly destroyed by the active action of the people, who have turned out en masse and fought back the fire from their own and their neighbors' dwellings and outbuildings. On Tuesday night, large quantities of the timber belonging to the Belleville and North Hastings Railway Company, and valued at about \$500, were burned near Sargent's, in Huntington. The approach

## EUROPEAN.

## Egyptian Defeat in Abyssinia.

## Massacre of the Egyptians.

New York, Sept. 7.—The *Herald's* Paris special says: I have just learned from a reliable source that a fresh disaster has befallen the Egyptian army of Abyssinia. Fifteen hundred Egyptian troops with their commander Hail Zuala, have been massacred. The Abyssinians afterwards proceeded to massacre the remainder of the Egyptian army. The government and Government officials escaped on board some ships which happened to be in port, and arrived safely in Suva. The Egyptian Government is contemplating vengeance, and sending fresh troops to the scene of defeat. The cavalry and artillery were also being reorganized.

## Daily Intelligencer.

BELLEVILLE, FRIDAY, SEPT. 22.

## Town and Vicinity.

Police Station.—There were three oc-

cupations of the cells last night, namely one

prisoner and two tramps.

Still Advancing.—Bastley shows an

other slight advance to-day, 700 to 720

being paid for No. 1. Receipts light.

A Centenarian.—An Indian woman,

named Sarah Shann, died at the Indian

woods, below Sharnonville, on the 15th

September, aged 109 years.

Social.—A social entertainment this

evening at Albert College. Admission

free. The service at 7 o'clock and

plenty of room. Provisions abundant.

Rifle Association.—The Hastings Rifle

Association will hold a meeting at Han-

dley's, for the purpose of arranging

for their annual match.

In the Sweet Fair Way.—We have

received from J. W. Reynolds, bookseller,

Bridge St., this beautiful piece of music.

Titled as by Mr. J. Davis, and the

words by G. Gladhill, published in

Belleville for the "Tide." The price is only 40

cents.

Officer Daly.—Messrs. Geo. Ritchie &amp;

Co., announce that their fall opening of

military, mantles, &amp;c., will probably take

place on Thursday next, 28th inst. No-

tion will be given one day in advance, after

the date has been fixed.

Induction.—The induction of Rev. John

E. Stuart, B. A., to the pastoral charge of

the Presbyterian Church, Trenton, will

take place on Tuesday next at 7 o'clock,

p. m. Rev. Mr. Wilson, of Kingston, and

Rev. Messrs. Burton and McLean, of Bel-

leville, will conduct the services.

Registration.—The Division Registrar

completes that registration of births, mar-

riages and deaths is very poorly attended

to. Parents, medical men and clergy with

a few honorable exceptions, are ne-

glectful of their duty, attention to which

would not involve much trouble to them.

The Residents.—A meeting of the

of Quince Youth Club was held last night

for the purpose of completing arrangements

for the holding of the annual regatta. All

necessary business was transacted, and the

meeting adjourned until Monday night.

Hastley's. An energetic canvasser of the

town will at once be made, and we have

no doubt that the necessary funds will be

raised without difficulty.

More Horses.—The 46th Oswego regi-

ment twelve have proved themselves in-

contestably the best marksmen in New

York State, by winning at Creedmoor, in

addition to the Gatling gun, the

Hastley's Army and Navy rifle prize of

\$750. Our neighbors are to be congratu-

lated on their success, which is not due to

luck, but to careful training and frequent

practice.

The Record of the Year.—This ex-

cellent publication, which in fact is an

abstract and brief chronicle of the year

past, to improve with age, each number

being more attractive, varied and inter-

esting than that which preceded it. As a

history of the times in which we live it

will possess a permanent interest. The

October part is embellished with a portrait

of Hon. Wm. M. Evans, and a

varied and comprehensive table of con-

tents. Published by G. W. Carleton &amp;

Co., New York, and to be had of all book-

sellers.

Midland Central Fair.—The time for

receiving entries for the above fair, which

is to be held at Kingston on the 27th, 28th

and 29th inst., has been extended until

the 30th, thus affording an excellent oppor-

tunity to intending exhibitors. The

Grand Trunk has liberally granted single

fare for passengers, live stock, implements,

&amp;c. Passenger tickets will be good for

five days, and those for exhibitors ex-

tended until ten days after the exhibitors

close. A considerable number of entries will

be made from this county, and a large

number of visitors will be present at the

exhibition.

Dedication.—The dedication of the

University M. E. Church took place yes-

terday very successfully, the attendance

being very large. The services were con-

ducted by Rev. A. D. Traveller, of Brockville.

Rev. W. Pirrille, of Colborne; and Rev.

Dr. Jacques and Rev. B. Lane, of Bel-

leville. A dinner was subsequently held in

the College dining room, where also the

collections and subscriptions amounted to about \$1,400,

or nearly sufficient to liquidate the debt on

the church. We congratulate Mr. E. E. E.

on his notable success in this

matter.

## THE PROVINCIAL EXHIBITION.

Thursday was the principal day of the

exhibition, and the weather being fine,

it proved an immense success.

The receipts at the gate were \$5,000, re-

presenting 25,000 paying visitors. During

the course of the afternoon the Hon. the

Lieut.-Governor arrived on the ground,

and was received by Mr. Isa Morgan, the

President of the Arts and Agricultural As-

sociation, and also the chief officers of the

interest. The Minister of Education, Mr.

Boyd, the Australian Commissioner for

South Victoria, and others were present.

The show is generally described as being

one of the most successful ever held in

Ontario.

In Penmanship and Ink Work, Mr. O.

Healy, of the Commercial College, had

some very fine specimens. Mr. Hasty

took the first prize for best penmanship,

business hand, without flourish, and

second prize for ornamental penmanship.

Messrs. Cooley &amp; Dunning, of Demo-

cratic, took the first prize for

The Canada Company's purse of \$100

for the best bushel of fall wheat, was

awarded to W. P. O'Neill, of Nelson.

The exhibition will officially close at

two o'clock to-day, when the exhibitors

will begin to remove their goods.

## Canadian Dairy Products at the Centennial.

We observe by a circular which has been

published that in addition to the gold, silver,

and bronze medals which have been con-

ferred by the Canadian Commissioners for the

best of Canadian dairy products exhib-

ited in October next at Philadelphia, that

the Myrden's Association of Ontario will

also give cash prizes in the form of

awards in accordance with the rules

and regulations of the American Centennial

Commission.

## THE GALLIOWS.

John Young hung!

DYING TWO DEATHS.

CANTON, Sept. 21.

The gallows at the foot of the

city of the law this morning at about 7:15.

He was accompanied to the scaffold by the

Sheriff and County officers, and three

clergymen, viz., Rev. Mr. Leach, Episcop-

al, Cayuga; Rev. Mr. Grasset, Episcop-

al; Rev. Mr. P. M. Methodist, Cay-

uga. After the rope was adjusted by the

executioner, and the cap drawn over his

face he was directed to kneel on the drop,

and after two of the ministers had engaged

in prayer with him, and while repeating

the Lord's prayer at the words "Deliver us

from evil," the executioner took hold of

the lever and the chain attached to the

bolt not having been strong enough broke

and he had to get a lodge hammer to

break the bolt out in order to let the door

fall. He then said to have "died two

deaths," a mental one for over five minutes,

before the executioner could do his work.

The drop was about ten feet, and after he

fell he did not seem to have any death

struggle. After hanging for thirty minutes

life was pronounced extinct, and the body

was cut down and an inquest held before

Coroner Judge Smith.

Large crowds were present and lined

the foot fence to where the scaffold was

built. It was certainly not strictly private as

all the movements could be easily seen by

the outside. The Montreal and the

murdered man, was among the number

of those present.

Death from Disappointed Love

ABORTION AND DEATH.

THE HELL GATE EXPLOSION.

LOUISVILLE, Ky., Sept. 22.—Alfred Rod-

ger, of Brownsville, Indiana, was lynched

on Thursday morning while returning from

Jeffersonville. He had threatened to kill

several persons, and having already been

convicted of murder, he was taken to the

gallows. He was killed by a mob of about

fifty men, who were armed with guns and

blows. The body was taken to the

hospital, but he died before he could be

buried. The authorities are doing their

best to prevent further violence.

NEW YORK, Sept. 21.—At the Republican

meeting last night, while Col. Carter, of

Idaho, was speaking a disturbance was cre-

ated by a mob of young men throwing mud

at the speaker's stand. The Eighth Ward

Republicans were also assaulted with mud,

and boulders. No arrests.

NEW YORK, Sept. 22.—Despatches from

Newport, Rhode Island, say that the

mysterious suicide on the steamer *Weymouth*

has been identified as that of Frank B. Smith,

Private Secretary to Secretary Hobson. Dis-

appointed love is supposed to be the cause.

He was under orders to proceed to China with

despatch.

BELLEVILLE, SATURDAY, SEPT. 23.

Town and Vicinity.

Arrived.—The Allan Steamship Service, p.m. Fall River this morning.

When Gibbard & Son show furniture all others may stand aside. Go see the price.

Cricket.—It is probable that a cricket match will be played at Wellington on Wednesday next between Hastings and Prince Edward.

Musician Club.—The regular meeting of the Musician Club will be held in the County Clerk's office, St. J., on Monday, 25th inst., at 7 1/2 o'clock.

Gibbard & Son Arrived.—Go see the best room built. Tour-press at Ottawa, Kingston, Lennox & Addington and Belleville.

Mass Fines.—A ruddy reflection in the south-western sky each evening of late shows that the Prince Edward marines are being turned over as is generally done this time of year.

Musical.—The Belleville band played on the Court House last evening, for the first time this season, and the night being clear, attracted a large audience. Our townspeople are very fond of music, still bands are not supported here as they ought to be in a place of the size.

Schooner Released.—Says the Oswego Bulletin of the 21st:—"The schooner *St. J.* which was driven ashore in Port last Sunday night, arrived in South Bay on Monday morning. One of the crew, the sailor, Charles O'Hara, who was on the vessel when she went ashore, says, no more lake sailing for him, the canal is good enough."

Gibbard & Son have the best, consequently the cheapest, furniture in Belleville.

Dunkin' in Light.—Napiano has at last succeeded in getting gas works, but the "Town Fathers" refuse to go to the expense of lighting the streets with gas.

Meeting on Monday Night.—All persons who are interested in the getting up of the regatta ought to attend the meeting at Hamby's on Monday night, when final arrangements will be concluded. Numerous contributions, as a goodly attendance is desirable, as it is probable that the regatta will equal in interest any which have ever previously taken place here.

Quoting.—The match between upper and lower town was played yesterday afternoon with seven men on each side. The result was a victory for upper town by fifty points. This probably closes the season of the Belleville Quoit Club, which has been very successful, a large number of new players of merit having been "developed" within the past three months.

Gibbard & Son are showing a price parlor suit. Go see it.

Religious Calendar for October.—Sunday, 1st, sixteenth Sunday after Trinity; Sunday, 8th, seventeenth Sunday after Trinity; Sunday, 15th, eighteenth Sunday after Trinity; Wednesday, 18th, St. Luke's Sunday; Sunday, 22nd, St. Andrew's Sunday; Saturday, 28th, St. Simon and Jude; Sunday, 29th, twentieth Sunday after Trinity.

The "Lady Standley."—The Oswego Palladium of Thursday says:—"The Toronto yacht *Lady Standley* arrived in Port this morning, en route from Port Antonio to Port Hope. The vessel was sold to parties in Port Antonio, but they failed to come down with the stamps, as they expressed it, and the Toronto owners were obliged to send for the yacht. The *Standley* is a fine vessel, and the crew is very enterprising but a homely stout and bulge out too much in the centre to be handsome."

Another Horse Case.—The Napiano Express says:—"David Boyd, better known as 'Brick,' hired a horse from Harris & Empey, on Monday last, to go to a short drive to the mill. On Tuesday morning he would be back at night. Fearing everything was not right, Messrs. Harris & Empey telegraphed to St. Catharines to know if such a person had been seen going there with an answer came back that a horse and answering the description, with three persons in the buggy, had gone through to Belleville, and that the horse was abused. They at once telegraphed to Belleville to have the horse arrested, and the horse taken care of, which was done. Word was sent to Chief Allen, who sent constable Howard to Belleville after Boyd, and he was brought down on Tuesday night last and lodged in the lock-up. On Wednesday morning he was brought before O. James, J. P., who, after hearing the evidence, discharged the prisoner, there being no ground whatever to suppose his intention to steal the horse and buggy. We understand an indictment will arise out of it for false imprisonment."

A Beautiful Chair.—The beautiful chair which stands within the communion service in the University M. E. Church was presented to the church by Messrs. J. Gibbard & Son, Napiano. The present is very handsome one.

Grain Market.—Receipts continue moderate in quantity. Rates to London moderate, and a good deal of grain went into stores. The market is refusing to sell at current quotations.

The Market.—There was an immense attendance on the market this morning, and an abundant supply of fruits, meats, vegetables, &c. Prices show no change since Thursday.

Gone Astray.—Mr. John Bennett's star-fanning mill, which was entered for the Provincial fair, went astray on the Grand Trunk, and consequently was not exhibited. It will, however, be shown at Kingston.

Services to-morrow.—At the University M. E. Church: Morning, 11 o'clock, Rev. L. M. Church; afternoon, 3 o'clock, Rev. Austin Louisa; evening, 8 o'clock, Rev. J. D. Jones. Bridge St. Church: Rev. R. Lane, M. A., morning and evening.

Marriage Home.—An engraving of Miss Macpherson's Home for emigrant children brought to Canada in her care, and a photograph by J. W. Boyce, appears in this week's issue of the Canadian Illustrated News.

Central Fair.—During the continuance of the Central Fair, to be held at Kingston on Wednesday, Thursday and Friday next, the steamer *Rochester* will carry passengers to Kingston and return at the extremely low rate of 25 cents. Free admission for exhibition will be returned form. "See advertisement for hours of arrival and departure."

Belleville as a City.—The Kingston News says:—"We see by the report of the meeting of the Belleville City Council, that was given by Mr. Hamby, Chairman of the Finance Committee, that at the next meeting he would introduce a resolution containing an application to the Legislature for the incorporation of that town as a city, and for the consolidation of the town debt. We are glad to notice this evidence of the prosperity of Belleville, and shall gladly have its entrance into the charmed circle of cities."

Outs for Editors.—An exchange has the following:—"Tommy, my son, what are you going to do with that club?" "Send it to the editor, of course." "But what are you going to send it to the editor for?" "Cause he says if anybody will send him a club, he will send me a copy of his paper." The mother, who was fainting, but recovered herself sufficiently to ask, "But Tommy, dear, what do you suppose he wants with a club?" "Well, I don't know," replied the urchin, "unless it is to knock down anybody who dares to pay for their papers. I suppose there are plenty of such mean people." That boy stands a chance of becoming Premier if he lives.

Police Court.—(Before A. Diamond, P.M.)

Drunk and Disorderly.—Wm. Grace, who appeared for the first time, was discharged.

Singular Property of Tomato Leaves.—

"I planted a peach orchard," writes Mr. Sirry, of the Society of Horticulture, Valparaiso, "and the trees grew well and strongly. They had just commenced to bud when they were invaded by the voracious *Phylloxera*, which insects were very numerous. I was very much surprised, as I had never before experienced such a pest. Having cut some leaves, the insect occurred to me that, by placing some of the leaves in the water, I could destroy the insects. I did so, and the result was that the leaves which I placed in the water were found to be free from the insects, while those which I did not place in the water were still infested. I therefore conclude that the water has a singular and useful property of destroying the insect."

Agricultural Shows.—

The following dates have been named for the holding of the undersigned Agricultural Shows:

Central at Port Hope, 25th and 27th and 28th September.

Western, at London, on September 26th and 27th.

Midland Central at Kingston, Sept. 27th, 28th and 29th.

Durham and Farley at L'Amable, on Wednesday, Sept. 27th.

St. Lawrence at Cornwall, on Friday, 29th and 30th.

Sidney Township Fair at St. Francis on Tuesday, Oct. 3rd.

Township of Rawdon, at the Town Hall, Thursday, October 5th.

Proctor, Edward County, at Picton, on Tuesday, Oct. 10th.

North Hastings, at Lake's, Hamilton, on Wednesday, October 11th.

Township of Tyngsboro, at Shamouli, on Thursday, October 12th.

Ontario Township of Tudor, &c., at Millbrook, on Friday, October 13th.

South Hastings, at Demorestville, on Saturday, Oct. 14th.

East Hastings at Robin, on Wednesday, 18th October.

Amherstburg, at Holden's Mill, Saturday, October 14th.

Hillier, at North Valley, on Wednesday, the 19th October.

MORNING DESPATCHES.

AMERICAN.

MEETING BROKEN UP.

YELLOW FEVER.

THE MOLLY MAGUIRES.

Toronto, Oct. 23.—George Couper, of New York, being only at the Royal Canadian Mounted Police, but the meeting was broken up by a crowd of 1,000 men, antagonistic to Mr. Couper's views.

New York, Sept. 23.—Special despatches report that the yellow fever is certainly epidemic in Charleston. A half-dozen new cases were reported yesterday. Previous to that date there have been about a dozen cases, six of whom died. The first case traced to a British bark, lately arrived from the South Sea Islands, and the only one who died. The case was a young man, who died on the 21st inst.

An Atlanta, Ga., special gives the following as made up from private despatches from Savannah, and from interviews with refugees from there: There are two thousand people sick with fever at present. One hundred and fifty new cases were reported yesterday with fifty deaths over night. Thousands of people applied for relief yesterday. The situation is grave. The relief committee report that for the present week expenses amount to \$2,000, but that the situation is somewhat on exception dependent upon demand for relief. The same despatches report over six hundred cases of fever at Brunswick, Ga., being about the same as at Savannah, while the above correspondent reports fifty-six deaths in Savannah yesterday.

The official report published gives the total number of deaths at thirty-five, of which thirty-one were from yellow fever.

The Savannah relief subscriptions at the Chamber of Commerce last night amounted to \$7,400 and the total public acknowledgment to \$10,000.

Pottsville, Pa., Sept. 23.—A despatch from Michael Lawler, who is on trial for being an accessory before and after the fact of the murder of Thomas Sangar, was called to the stand and made a clear breast of what he knew about the Mollies. He confirmed the detective McFarlane in even minute particulars and went beyond him in pointing out almost incredible acts of high treason.

A disturbance in Church.

During the night of 22nd inst., when a church, listening to some great effort of some popular preacher, he was constantly disturbed by the steady, persistent cough of some neighbor, and yet nothing is easier than to stop a cough, except of WIGGINS' PULMONIC TONIC, which will check it at once.
